## Castle Currency

Castle Currency can be redeemed for any of the services that Castle Building & Remodeling performs. How does it work? Castle Currency is earned by referring customers to Castle. For each customer referral you give to Castle that turns into a job, you will receive \$100.00 or 1% of the job sales price, whichever is greater. For example if you refer a friend and they decide to use Castle to complete a remodeling project that costs \$20,000.00, you will receive \$200.00 in Castle Currency to apply to your balance, spend as you like on future projects or give to family or friends.
