The best value in professional remodeling

BUDGET ANALYSIS

Project Description:

Gut existing attic space. Build new 26' dormer. Finished space to have 2 bedrooms, closets, hall, and bath. Includes insulation and eight new windows. Unfinished storage space under the eaves on side opposite dormer (includes paint over drywall on ceiling only). All walls will be finished, trim will be painted and flooring to be carpet. Stairs will remain but will get a rail and balusters around the stairwell. Mechanicals to include HVAC extended into the new space, electrical wiring and lighting to code and plumbing for new bathroom. No upgrade or replacement of furnace. Foam insulation rafters- i.e. hot roof.

	Qty. Unit	Low Budget		High Budget		
01. Permits and Design						
Permit	1 EA	\$	2,850.00	\$	3,135.00	
Design and Planning Process See Design and Planning Agreement for Details.	1 EA	\$	5,300.00	\$	5,300.00	
Subtotal - Category 1		\$	8,150.00	\$	8,435.00	
02. Site Prep and Demolition			•		·	
Site Prep (Includes floor protection, poly curtain walls, and delivery of tools/equipment and set up of job site). Place yard sign and order dumpster. Protect floors through home to work area. Install poly curtain walls and zipper doors to work area.	1 EA	\$	381.50	\$	419.65	
OPTION: Furnish and install a Schlage "Camelot" keypad electronic deadbolt. Finish: TBD ADD: \$110.00 NOTE: This is priced at our cost with free install. It is a good alternative to having a lock	1 EA	\$	0.00	\$	0.00	
box on your door and you can use it in the future after your project is complete. There are other options that provide "smart" technology as well for a slightly higher cost. Ask your designer for details.						
Demolition of work area to EPA lead safe work practices. Remove existing paneling, millwork, insulation, and flooring down to studs/subfloor/rafters. Remove existing roofing and rafters/sheathing at area of dormer.	1 EA	\$	5,920.00	\$	6,512.00	
Furnish active air filtration on the site for the duration of the project to minimize dust and particulate infiltration in non-construction areas	1 EA	\$	131.00	\$	144.10	
NOTE: Although care is taken to carefully remove tile from walls and floor occasionally screw pops, hairline cracks, and other issues can arise in adjacent spaces; no costs are included in this estimate to patch drywall or repaint walls in adjacent spaces but the need could arise and can be handled with a Change Order. We also use the most expensive and sensitive tape when taping prep to the floor, walls, or trim. If it is a bad or old finish, there is a small chance that it may peel some of the existing finish off. Any additional repairs will be an additional charge and dealt with in a non-chargeable change order.	1 Note	\$	0.00	\$	0.00

mbing	_				
NOTE TO CLIENTS: During kitchen and bathroom remodels, the pipes (drains and galvanized water lines) sit for extended periods of time with no water going through them. The build up on the inside of the pipes dries up and sometimes can come free and clog either a drain or water line, once the water is turned back on at the end of the project. There is no money included to unclog a pipe if this happens and additional charges will occur.	1 Note	\$	0.00	\$	0
General Plumbing Note: Any new waste or supply lines will be plastic, not copper or galvanized.

^{*}Doesn't Apply to Bank Financing or loan process that requires Castle to receive payment directly from that entity after Castle has paid subcontractors and secured lien waivers. In these instances Castle essentially acts as the financier for the project and incurs borrowing costs. Exceptions include banks willing to follow Castle payment structure.
