Site Prep Small to Medium Project (Includes floor protection, poly curtain walls, and delivery of tools/equipment and set up of job site). Place yard sign and order dumpster. Protect floors through home to work area. Install poly curtain walls and zipper doors to work area.		1 EA	\$	571.05	\$	628.16	
Kitchen demolition of work area to EPA lead safe work practices: Removal of existing kitchen flooring to the subfloor, countertops, cabinets, sink, and faucet. Gut walls to studs. Gut ceiling to joists. Remove windows and discard.		1 EA	\$	2,234.40	\$	2,457.84	
Furnish active air filtration on the site for the duration of the project to minimize dust and particulate infiltration in non-construction areas		1 EA	\$	141.30	\$	155.43	
NOTE: Although care is taken to carefully remove tile from walls and floor occasionally screw pops, hairline cracks, and other issues can arise in adjacent spaces; no costs are included in this estimate to patch drywall or repaint walls in adjacent spaces but the need could arise and can be handled with a Change Order. We also use the most expensive and sensitive tape when taping prep to the floor, walls, or trim. If it is a bad or old finish, there is a small chance that it may peel some of the existing finish off. Any additional repairs will be an additional charge and dealt with in a non-chargeable change order.		1 Note	\$	0.00	\$	0.00
