NOTE: Our standard is low VOC for walls and ceilings. If client or designer prefers NO VOC for walls and or ceiling paint and primers, specify so during design. Our standard is low VOC for woodwork, although may not be able to use low VOC primer due to existing stain/wood condition- tbd. Will use low VOC primer when able.

NOTE: Please note that when the client is doing the painting, they are responsible for caulking, filling nail holes, and repairing minor wall and ceiling dings. There will need to be a few rounds of touch-ups, due to the nature of construction, and that falls under the scope of the painter.
