infiltration in non-construction areas.

NOTE: Although care is taken to carefully complete demolition, screw pops, hairline cracks, and other issues can occasionally arise in adjacent spaces. No costs are included in this estimate to patch drywall or plaster or repaint walls in adjacent spaces, but the need could arise. We also use the most expensive and sensitive tape when taping prep to the floor, walls, or trim. If it is a bad or old finish, there is a small chance that it may peel off some of the existing finish. Any additional repairs will be an extra charge and dealt with via Change Order.

NOTE: Our standard is low VOC for walls and ceilings. If client or designer prefers NO VOC for walls and or ceiling paint and primers, specify so during design.
Our standard is low VOC for woodwork, although may not be able to use low VOC primer due to existing stain/wood condition- tbd. Will use low VOC primer when able.

NOTE: Please note that when the client is doing the painting, they are responsible for caulking, filling nail holes, and repairing minor wall and ceiling dings. There will need to be a few rounds of touch-ups, due to the nature of construction, and that falls under the scope of the painter.

Disposal and clean-up:
-Remove all site prep, wipe down and broom sweep area.
-Haul all extra material off site.
NOTE: This doesn't include professional cleaning. Deep clean available at additional cost to be handled on a change order at end of project.
Street permit:
-Minneapolis street use permit for dumpster.
NOTE: If dumpster can be placed on driveway or lawn this can cost can be saved.

NOTE: If the dumpster is placed on the street, and the city calls a snow emergency or street cleaning, there will be an additional $\sim \$ 200$ charge per move or violation via a change order. Sometimes it will get moved, sometimes it will just get fined. The charge is the same either way.
